

BRISNORTH COMMUNICATIONS

Playing back Voicemail through your handset using MXIE

First, check that your mxie is “Bound” to your handset-
Click File | Bind to:

Select “by a call”

-Click “Next”

-it will give you a code to dial from your handset

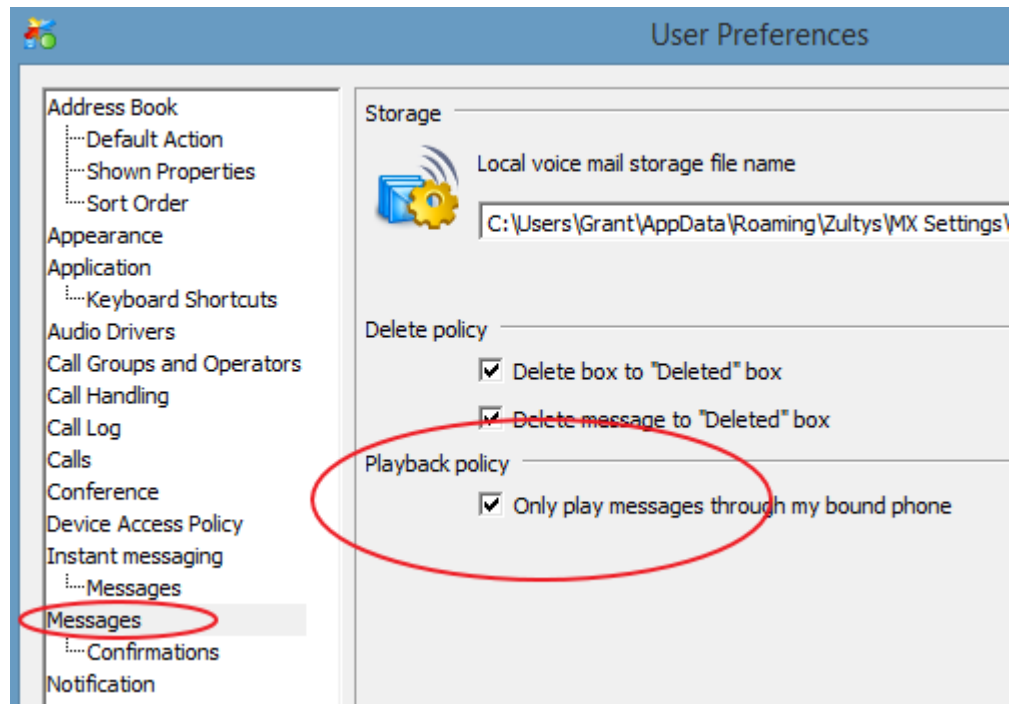

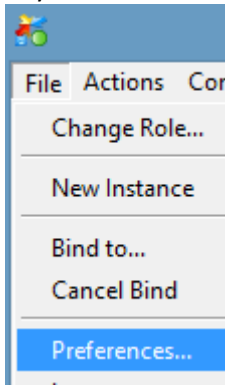

-Dial in that code (including any stars, hashes etc)

Then you’re set-up.

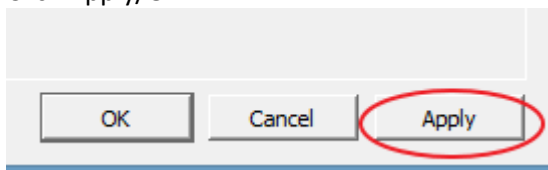

[NB everyone who has a MXIE must do this – it only needs to be done the once]

Then,

In your mxie click File | preference| then “Messages” :

- Set playback policy to “Only play through bound phone”
- Click Apply/OK

Now, when you use mxie to play back your voicemail, it will playback through the handsfree-speaker, or the hand-piece if you lift the handset.
